

FOR PARENTS WITH CHILDREN ENROLLED in THE JUNIOR MUSEUM
SUMMER PROGRAM

The general function of the Junior Museum Summer Program is to expand and enrich our children's understanding of the world in which they live. With their tremendous energy and enthusiasm, they can derive a great benefit from a Nature program which is not only educational but fun too. Learning of this type is especially valuable since it can be coordinated with hobbies, special projects, Scout work, and collections.

We are just making a beginning in Santa Cruz, feeling our way along, and hoping for the best. Other communities have been successful in developing Junior Museums with their widespread benefits. We feel confident that our Summer Program will be a step in the right direction.

There will be many opportunities where parent's help will be needed and appreciated. - Transportation, assistance on field trips, registration and records, etc. Most important of all, interest stimulated in the junior Museum program must be encouraged by the parents. Out of the child's interest in crawling things, vile smelling chemicals, etc. will develop the future scientist of tomorrow, Don 't discourage them.

Please indicate below the areas in which you wish to assist:

TRANSPORTATION:

Days and hours available _____

-P

Capacity of car _____

ASSISTANCE ON FIELD TRIPS

Days and times available _____

OTHER TYPES OF HELP _____

THE RELEASE MUST BE SIGNED BY THE PARENT OR LEGAL GUARDIAN OF EACH CHILD
