It's Her Birthday

Happy birthday Alice. Our "Sixth Supervisor," the lady-in-the-red-hat is 90 years old today and tomorrow she will be back on the job of watchdogging the goings-on at county government center. On Tuesday, we can expect she will speak to the board of county supervisors at the public oral communications period and in one way or the other remind the board it serves at the will of the people. Mrs. Wilder the past week received commendations from the state Assembly and Senate. She has been woman of the year both in Santa Cruz and in her beloved San Lorenzo Valley. See story, page 16.
