Highway 9 repair work continues

BEN LOMOND — Crews continue to work to shore up a section of Highway 9 near here which has been closed since a Dec. 21 rainstorm. Caltrans closed the

section of highway near Alba Road after discovering ripples in the surface. A Caltrans spokesman said the highway

probably will not be re-opened until after New Year's. The closure is in an area where crews had been making permanent

repairs to the roadway from last January's storm. Permanent repairs are expected to take several months.
