Maywood Manufacturing Co. Operating In New Building

Recently completed structure of the Maywood Manufacturing company which makes unfinishcompany which makes unfinished furniture, is pictured in top photo. It is located at 1115 Thompson avenue in the Live Oak district. Center photo shows the busy, fully-equipped shop located in the north wing of the new building. In the bottom picture, Everett W. Eyer, senior partner of the Maywood company, explains to Fred H. Jenkins, Sentinel-News reporter, how the large drum sander in the shop operates. Eyer supervised conoperates. Eyer supervised construction of the building and he also originally designed and cut the unfinished furniture manufactured by Maywood in his own plant at Los Angeles.

Furniture Company Has 21 Employes

Just 45 days after the ground was levelled, the Maywood Manufacturing company is now in full operation in its new building at 1115 Thompson avenue in the Live Oak district. This feat was accomplished under the direct supervision of Everett W. Eyer, senior partner of the Maywood company.

Eyer originally designed and cut the unfinished furniture manufac-tured by Maywood in his own plant in Los Angeles.

After moving to Santa Cruz several years ago, Eyer interested George Morden and his partners, R. M. Booker and Mannis Dick in going into the same line of business in this area.

Eive across of land were purchase.

Five acres of land were purchased from Albert Knauer for the site of the new structure, which has 13.200 square feet of space under

A spur track will be put in soon leading to the south wing of the structure from the Southern Pacific tracks which run between Santa Cruz and Watsonville.

With the purchase of a large drum sander, Maywood now has a fully equipped shop which occupies

fully-equipped shop which occupies one wing of the new building. Lumber cut there is under Eyer's

supervision.

Due to the steady increase in its wholesale furniture manufacturing business, the Maywood company is gradually enlarging its crew of workmen. At the beginning of this week, it had 21 employes and more are expected.

employes and more are expected to be added shortly.

Between 70 and 80 items of furniture are manufactured at the plant and the entire output is shipped to California retail

outlets.
