

Scene Of Future Levees

Looking north from the Soquel avenue bridge, the camera catches land clearance for levees to be constructed next year along the San Lorenzo River flood control project. The semi-demolished house on the right and its adjacent neighbors will be cleared away soon for the project.

MERRY CHRISTMAS

Stamford, Conn. (AP). — Patrolman Edward J. Lenz, in tune with the season, has started directing traffic with a white mitten that has a message. On the palm, there's the word "Merry" and a Santa Claus picture. On the back is the word "Christmas."

Crews Work On Flood Control

Construction crews and heavy equipment work on the trench to relocate a sewer line outside the San Lorenzo River flood control levee take lines. The barren land in the background has been cleared by crews preparatory to levee construction next year.

Nicosia, Cyprus (AP). — A rock-face collapsed today at Cambia Mine southwest of Nicosia, killing three men whose truck was buried.
