

Watsonville sphere of influence *Growth* subject of LAFC public hearing

CAPITOLA — The public will get a chance to speak on the future growth pattern of the city of Watsonville when the Local Agency Formation Commission meets Jan. 12 at Capitola City Hall beginning at 9:30 a.m.

The subject of the public hearing is Watsonville's sphere of influence — the plan which shows what areas potentially can be annexed to the city from now until 1990.

Written or oral comments will be accepted.

The sphere being proposed by LAFC includes:

- The lands inside the existing city limits.

- The Freedom community between the vicinity of Manfre Road to the vicinity of Arthur.

- Parcels southeast of Atkinson Lane.

- The vicinity of the Salsipuedes Sanitary District, between the current city limits near East Lake Village shopping center and the County Fairgrounds.

Also during the meeting, commissioners will consider a mitigated negative declaration stating there are no significant environmental effects from the proposed sphere of influence. Anyone interested in commenting on the proposed negative declaration must do so no later than the hearing.
