

Aptos looks at self-government

A forum on "alternative self-government" — a possible precursor to attempts to incorporate Aptos — will be held at Cabrillo College Sept. 19.

The forum, moderated by Cabrillo College President John Peterson and featuring local government expert Linda Martin, will be held from 7 to 10 p.m. Martin recently completed a doctoral dissertation on incorporation in California since the passage of Prop. 13.

The forum, part of the col-

lege's Continuing Education office, is an outgrowth of a new Aptos Chamber of Commerce look at the various self-government alternatives.

"This will be a general discussion on the advantages and disadvantages of self-government," Chamber director Dick Jamison told the chamber members this morning.

"It is not an attempt to incorporate Aptos although after this, people may be more or less in favor of it."
