### A colorful job

Volunteers Gary Parks and Dennis Rogers worked with a dozen other Aptos Neighbors Association volunteers Saturday to repaint the Southern Pacific trestle over Soquel Drive in Aptos Village. Parks designed the scene painted on the abutment and Rogers, co-owner of Aptos Lumber

and Hardware, arranged for the donation of some of the paint and labor. The trestle and the abutment have been sprayed with "Grafitti-Guard" — a new paint that resists vandalism. For a last look of the trestle before the beautification project see page 8.
