Bids for another section of Interstate Route 280 will be opened July 31 at Sacramento. The section to be constructed extends from just east of Saratoga avenue, San Jose, to Stelling road, Cupertino.

About four-and-a-half miles of six-lane freeway will be constructed at an approximate cost of \$4,627,000.

The Junipero Serra channel will be constructed in conjunction with the freeway project and a portion of Saratoga creek will be improved and realigned under a cooperative agreement between the state and the county flood control district, which is contributing \$146,500.

The contract also calls for installation of traffic signals, highway lighting and sign illumination systems. Undercrossings will be constructed at Lawrence expressway and Stevens Creek boulevard.

Overcrossing structures will be constructed at Blaney avenue, Wolfe road and the Saratoga-Sunnyvale road, and an off-ramp structure at Saratoga creek.

Completion is set for December 1964.
