

What is the Santa Cruz Free University ?

It is people who live in the area who want to find a meaningful existence in their community, who recognize that their interests, problems, joys are not unique to themselves, but are shared by others.

It is a chance for communicating with others to expand knowledge, experience, awareness, to break down barriers of fear and misunderstanding that interfere with the quality of life.

It is coming together to explore new ideas, to ask the questions that we often ignore in the rush toward a technological conformity, to make individual choices among alternatives for a life style with meaning and human dignity.
