

## Help for salamander

Trucks continued today to deliver earth used in constructing a dike in the salamander pond at Rio del Mar. Granite Construction is building the dike, a new dam and fence for the pond under a \$96,500 contract with Caltrans and the state

Department of Fish and Game. When completed next month, the pond, one of two breeding spots for rare Santa Cruz long-toed salamander will be turned over to the fish and game department to administer.
