

Larry Wrathall watches towers being hooked up to crane . . .

## Up she goes

In 45 minutes yesterday afternoon, radio transmitting tower for a new midcounty station (KKAP, 1540) was put in place near the Cabrillo golf links in Aptos. The 170-foot high radio tower will beam the station's signal when it opens, some time later this year, according to general manager Larry Wrathall.

. . . lifted into a vertical position . . .
