Drowning victim at UCSC pool identified

The man who died while swimming in UC Santa Cruz's pool Friday has been identified as Francisco Parcet of Chile.

Parcet, an international student, was doing laps underwater as part of a breathing exercise when a lifeguard noticed him not moving around 7:30 p.m.

Other swimmers, including a water polo team, were in the pool when Parcet died.

The cause of his death has not been released. The Coroner's Office may issue a report as early as Tuesday.
