12-13-59

Through the efforts of the Holy Cross Mother's club, the playground at the new Holy Cross Grammar school is now completely equipped. Installed in the tanbark-covered play area is a rocket slide (bottom picture), a crow's new climber (above) and a horizontal ladder and circus. There are also a pair of basketball backboards, a circle goal and two tether balls. According to Sister Mary Gerard, OP, schedules are in effect on the playground to give each class an opportunity to use the equipment.
