

1989 Watsonville

# Earthquake memorial

Diane Varni

At Watsonville Plaza yesterday, Bill Ringe, above left, representing the Farm Bureau, and artists Lee Cozens and David Cohen show the design for a monument to the Oct. 17 earthquake. The design is for a 15-by-15-foot brick fountain 7 feet high to be installed in the Plaza. It features tile murals and water cascading through fissures in its brick walls. Funding, estimated at about \$20,000, is coming from various arts groups and private donations. It was designed by Cozzens, Cohen and Tot Tatarsky.
