Donald Black Named UCSC Library Aide

Donald V. Black of UCLA has been appointed head of technical processes for the library of the University of California, Santa Cruz it is announced by UCSC Librarian Donald T. Clark.

Black will have supervisory responsibility for the library's acquisition and cataloging processes and will undertake the design of mechanized systems for accomplishing the work of his division. The ultimate goal is a computer-based program which will mean more rapid and more accurate handling of the repetitive detail work that goes into the processing of a library collection.

A long-time member of the university family, Black received his A. B. degree on the Berkeley campus in 1947.
