

Old Landmark On Way To New Location

Top photo, taken late last night by Sentinel-News Photographer Gordon Lyon, shows how the old Duncan McPherson residence blocked Mission street traffic for over 24 hours. The house became stuck in the mid-

dle of the street when the steel dolly shown in the lower picture crumpled under the weight like so much cardboard. Wendell Thompson, Modesto house-mover, in charge of the opera-

tion, is shown as he began repairing an earlier mishap to the dolly—a flat tire. At 1 p. m. today, with new dollies under it, the house had been moved to King and Jordan streets. It is en route to 316 Davis street.
