Clock repairs are on time

Town Clock

JUDITH CALSON — MERCURY NEWS

Jack Ivoncovich works to shore up the tower of Santa Cruz's 95-year-old Town Clock, which will have to be dismantled to repair damage from a fire. Its 1,500-pound bell hangs in the area

where the fire broke out Sunday night. The clock was not seriously damaged, but smoke, soot and water have damaged its gears. The repairs are expected to take a few months.
