

## Big Day For Cowell Beach Hotel

Ground was broken Wednesday for the \$750,000 Dream Inn hotel at Cowell beach. Project principals on the bay-front site were, left to right, Architect Kermit Darrow, AIA, of Santa Cruz; design consultant; Fran-

ces Anderson, secretary of Dream Inns, Inc.; Robert S. Crossland, attorney for the developers; John Riskas, executive for H and J Construction company of Phoenix; and Kent Fish, president of Dream Inns. The cliff will be cut down to a

15 foot elevation to form the foundation pad for the four-story, 65-room motor hotel. A coffee shop, cocktail lounge and banquet room will be included in a two-story building adjacent to the wharf parking lot.
