

Supervisors Expected To Make Formal Plea For Highway 17 Safety Measures

County supervisors Monday will formally consider asking for safety measures along Highway 17.

The board has informally agreed to ask the state division of highways for installation of left turn lanes, turnouts and escape roads. Approval of the formal resolution is expected. The board meets at 9:15 a.m. in the courthouse annex.

At the same time, Scotts Valley school trustees will invite the board to take a ride on a school bus that travels the highway. Trustees hope to emphasize the need for safety measures by demonstrating that schoolchildren are exposed to hazards at several points during a daily trip. The school board authorized a letter Thursday night to be sent to the supervisors outlining the bus trip offer.

Other matters scheduled for discussion include:

UNIVERSITY ROAD — No action on a bid award for the University of California at Santa Cruz east peripheral road is expected. Bids for the 1.9 miles of roadway were received by supervisors two weeks ago, but are being held up until university officials approve the road alignment.

Public Works Director Warren Harrison said Friday he had not

yet reached agreement on the road alignment with the college staff, and will ask that the bid award again be delayed.

SEASCAPE — An agreement for sewers to serve the Aptos Seascape development in Rio del Mar will be considered by the board,

which will sit as directors of the Aptos sanitation district.

BEACH SPEEDERS — A letter from the Rio del Mar Beach Owners association will be read, which requests that measures be taken to cut the speed of cars along Beach drive in that community. The association is asking for crosswalks, more speed limit signs, and "rumble strips" of rough pavement to slow autos.
