

Free Storm Lecture Set

A free lecture on last month's storm and mudslides, including preventive measures for future planning, will be held Tuesday at the Nelson Center.

Sponsored by the city of Santa Cruz Department of Parks and Recreation, it will begin at 7:45 p.m.

Presentations will be made by expert speakers

Dr. Gary Griggs, Dr. Gerald Weber and Tom Burns.

Griggs, professor of geology and head of the Earth Sciences Board at UCSC, will speak on, "Flooding in the Storm of '82." Weber, consulting geologist from Weber and Associates, will present,

"Slope Failure and the Love Creek Slide." Tom Burns, environmental coordinator for the county will address, "Considerations for Future Planning in Santa Cruz County."

Written questions from the audience will be answered at the end of the program. For more information, call 429-3773.
