Christian Education for today's World

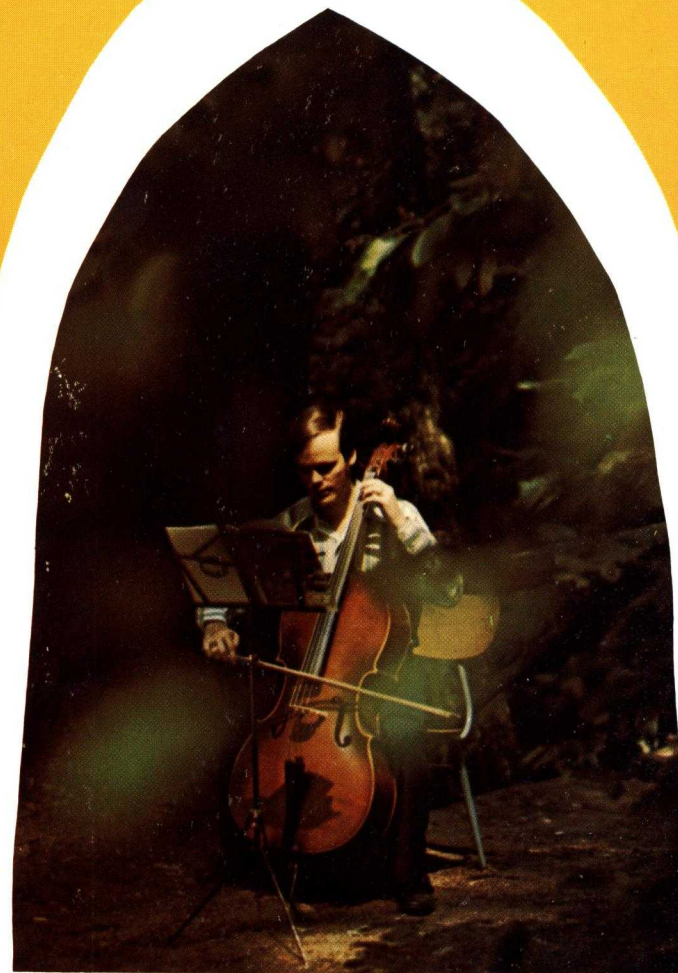

Bethany Bible College is a four-year, coeducational college dedicated to developing mature Christian leadership within a framework of academic excellence. Located seventy miles south of San Francisco in the Santa Cruz mountains, the college estate consists of 45 acres of natural California redwood parkland.

Bethany's student body includes young men and women from all parts of the nation and several foreign countries. The majority of Bethany students are members of the Assemblies of God . . . but other denominations are usually represented.

Students are selected for spiritual maturity and seriousness of purpose, and the majority of Bethany's graduates are engaged in full-time Christian service, public and private education, and social service.

Bethany is accredited by both the Accrediting Association of Bible Colleges and the Western Association of Schools and Colleges. The baccalaureate degree is offered in Bible, Christian Education, Missions, Ministerial Practicum, Preseminary, Music, English, History, and Social Science.

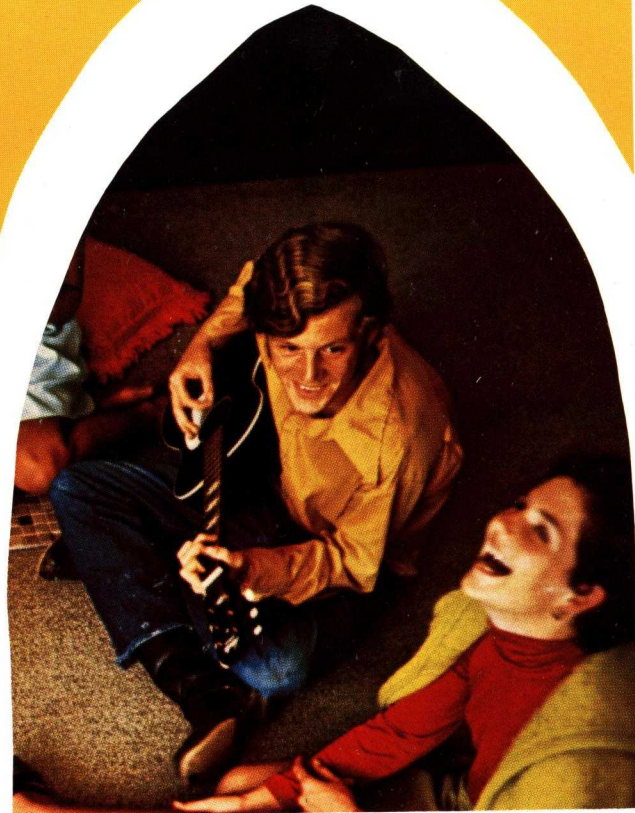

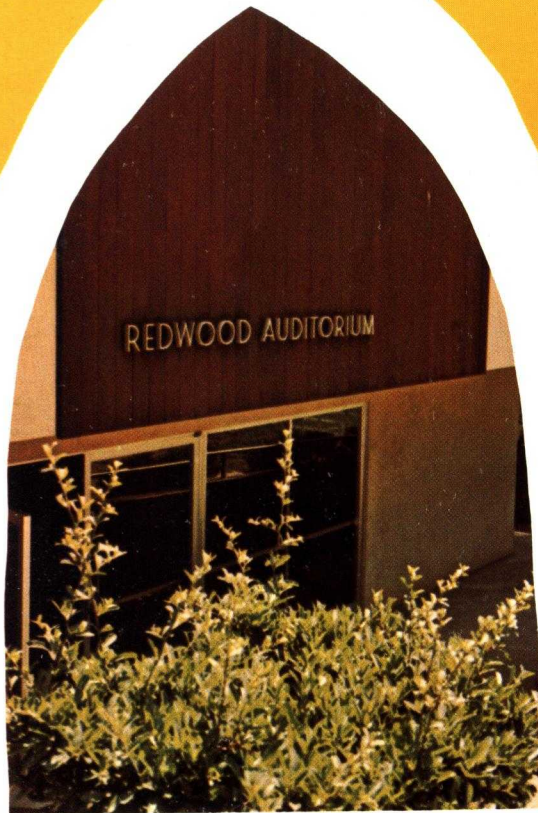

An Assemblies of God Bible College

Contemporary Christian Concern... commitment

For over half a century, Bethany's goal has been to challenge each student to achieve his potential in academic proficiency . . . commit to Christian ideals . . . and develop professional tools to minister to the world's needs.

Bethany is known for music—realizing that much of the vitality of worship and appeal of the message of the Gospel depends upon inspired music. Musical activities include the Ambassador Choir and Concert Band, musical ensembles, the Summer Bethanaires—all of whom travel for the college, and individual study.

ment, preparation, education and service to man through Christ!

The faculty represents 250 aggregate years of ministerial experience—together with outstanding academic training evidenced by advanced degrees, professional competence, spiritual leadership, and doctrinal stability.

Student life at Bethany consists of a balance between study, worship, athletics, recreation, student government, and informal student activities. The surrounding California redwoods also invite relaxed walks and meditation.

Actual missionary and ministerial experience is crucial to each student's professional training. Each summer the Missionary Society sends internees to foreign fields. Through student ministry, students assist in local churches, street meetings, rest homes, and in other programs.
