

## *Pioneer Group of Buildings Give Way to Modern Structure*

1-27-31

Two views of the old buildings on the Gault school lot that were deserted by faculty and classes yesterday when the handsome new building was occupied for the first time by Gault school. Top shows the main building and group of children with the new building in the background. Bottom—One of the old annex buildings used as school rooms. All of these will now be removed or wrecked.
