SC Library Bond Drive Under Way

The library bond drive is gathering momentum this week. Starting tomorrow, tours of the main library will be set up for groups and individuals who want to judge for themselves the need for new facilities.

The speakers subcommittee of the citizens' committee for library bonds met last night to start putting together information packages for speakers to use in addressing civic groups and the like.

The steering committee will meet at 7:30 p.m. Thursday at the library. The steering committee consists of committee chairmen Len Gerkenmeyer and Mrs. Eugene Fleming, plus subcommittee chairmen.

The bond issue, which will be on the June primary ballot, will provide \$1.4 million for construction of a new main library and a new east Santa Cruz branch.
