

## Vandalism At Library

The Santa Cruz main library has been struck by a wave of vandalism. City maintenance man John Morris examines one of four chairs whose covers were slit during the destruction spree. A lighted cigarette was tossed on the carpet near the pictured chair. "We've had so many

students and adults express pleasure at using the library and its comfortable furnishings, it's difficult to understand why anyone would do a thing like this," commented Librarian Geraldine Work. She also reported magazine thefts have risen to such a level that their lending might have to be restricted.
