Brown Accuses Jordan Of Having Interest Conflict

By Rob Wood

Associated Press Writer

SACRAMENTO (AP) — Gov. Edmund Brown today said there definitely was a conflict of interest in Secraary of State Frank M. Jordan's ownership of stock in a voting machine company.

Brown said the Republican state official should "get rid of his holdings. This is a real conflict of interest."

NATO Nations Asked To Aid Viet Nam War

PARIS (AP) — U.S. Secretary of State Dean Rusk called today for more intimate Allied consultations on world problems, a sympathetic reception to the concept of an Allied nuclear command, and concrete help for the hard-pressed South Viet Nam government.

Rusk told the winter ministerial meeting of the North Atlantic Treaty Organization that the United States hopes its allies will give tangible help to South Viet Nam.

Conference sources quoted Rusk as explaining that the free world has a big stake in developments in Southeast Asia.

Rusk linked the Viet Nam problem with a number of

During his weekly news conference, the governor said Jordan "must re-examine his position" in relationship to his financial interest in the firm and his current position as a member of the state voting machine commission.

Jordan, the state's chief election officer, answered, "The attorney general said I can disqualify myself from voting if my equipment comes before the commission. As yet this machine has not come before us."

Brown said he did not believe that a conflict of interest would be eliminated even if Jordan disqualified himself from voting.

"That would leave only a two-man commission whereby law requires three members," the governor added.

Jordan told the Associated Press, "There is no conflict of interest involved in this matter."

Asked if he would divest himself of the financial interest in the voting machine firm, Jordan answered:

"I will not. There is nothing in the State Constitution that says I can't be engaged in another business."

The secretary of state also said he had at one time held stock in the Coleman voting machine, but sold it when the firm appeared before the commission.

The voting machine commission consists of Jordan, Brown

carry their belongings. The new floods caused some 500 deaths and left thousands homeless in Ninh Thuan and Phu Yeb. (AP Wirephoto via radio from Saigon)

Board Selects Eastside Area

By Alan Pugh
Sentinel Staff Writer

Trustees of the Santa Cruz High school district last night selected a near 50-acre site for the new \$1.7-million high school building. It is situated adjacent to the Watsonville-Santa Cruz freeway at the city's easterly limits.

Known as the "La Fonda" site, it was one of four presented to the board by members of a citizens site selection committee. The first alternate was the "harbor site" which extended southerly from Capitola road in the

state for a job classification and salary survey at a cost of \$3500. —Set West Side elementary attendance boundaries and discussed phasing out for the Garfield Park and Mission Hill elementary schools.

—Authorized expenditure of up to \$7000 for purchase of property on Weeks avenue for high school expansion. —Called for a special meeting at noon, December 28 to award bids for the new Natural Bridges school.

Denied a request of Elton Thompson, director of curriculum, to attend Stanford and complete his doctor's degree.

Heard a comprehensive report on the school's special education program as it applied to the mentally retarded. The board also awarded bids for high school art equipment, elementary and high school shop equipment, Westlake Elementary school paving, and for wrestling mats at Soquel high.

it were needed later.

Morrissey said the district had set September, 1967 as target date for opening the new school and that haste was necessary.

The site is designated as a "triangular portion bordering on Highway 1 to the north, Soquel avenue to the south, the city's limits on the east and Park way on the west. Roughly, it is in the Arana Gulch area.

Porter said some of the land was heavily wooded and many of the trees would be saved and used in the landscaping for the new high school plant.

Morrissey pointed out that the location was in the area of population growth, and met all requirements of size, location, cost and topography.

Still on the building program, trustees accepted the bid of Victor Bogard of Santa Cruz for 24 new classroom units and other work at Soquel High school. Bogard was low with the bid of \$647,674 in a field of nine who sought the contract. Bids ranged up to the high of \$691,000, with the Bogard figure being \$70,000 below the architect's estimate.

In other actions, the board:—

—Approved a data processing program with a monthly rental figure of \$1488.50 for equipment from International Business Machines. Both educational and school business processing will be done by the equipment.

Agreed to a contract with the
