

# More Birdmen Arrive in City

---

B. M. Spencer, the pilot, and W. H. Werner, an aviator, arrived yesterday, and a second machine is flying over the city. They are of the Pacific Aviation Co. at San Francisco, and they came in a Martin T.T. airplane from Richmond. They made the trip in an hour and 15 minutes and landed on the Younger ranch, just outside the city limits on the coast road.

They were getting short of gas and for that reason they landed in the first field.

Both have been in the government service, Werner having been stationed at Hazelhurst field, Long Island, and Rockwell field, California. Spencer was stationed at McCook field, Ohio.

Charles Donald Younger was at the ranch and piloted them about the city and introduced them to citizens.

The first Santa Cruzan to ride in their car was C. H. Dunn.
