

Y.E.S. Week

# Give a Kid a Job This Summer ...

DISH UP ICE CREAM . . . Bobby Bourriague of Soquel high school whips up a super-super banana split at Marianne's.

## Why ?

By Margaret Koch  
Sentinel Staff Writer

Back in the "old days" there was wood to be chopped, a cow to be milked and a vegetable garden to weed . . .

Chances are there were errands and chores to perform for Granny or an aged neighbor. A kid learned early to pull his own weight in society.

Today, furnaces, supermarkets, autos and telephones have changed the odd-job outlook considerably. In 1965's era of specialization, a high-schooler finds summer jobs increasingly harder to come by.

Why should he work at all?

There are a few old-fashioned reasons which have to do with words and phrases like "reliability," "self-reliance," "learning the value of a dollar," "an honest day's work" and "self-discipline."

Obviously we can't return to the day of the kitchen wood box, but we can pioneer in providing 1965-type jobs for our teenagers. They still need the character-building experience of learning to feel useful.

And what's in it for you who will be providing the jobs?

Do you have an "extra" job you want done this summer?

Does Mom need a "day off?"

Are you leaving for vacation and wondering who will feed the family pets?

Whether you want a helper once a day — once a week — or just once — hire a youth.

With this thought in mind, a group of Santa Cruzans have banded together to form the Y.E.S. (Youth Employment Service) committee. May 23-29 has been proclaimed Y.E.S. Week.

To register a job need call 426-1593.

To get a job call 426-1593.
