Rio Directors To Discuss Water District

Ed Hanna, county water projects coordinator, will lead a discussion on the effects of annexing to the Soquel Creek County Water District Tuesday at 8 p.m. at a meeting of directors of the Rio del Mar Improvement Assn. at Rio del Mar School.

1970-79
Water Supply
The Rio del Mar-Aptos area is currently in the service area of the district and has no voice in election of its directors. Directors were informed last month that being included in the district boundaries would have little or no effect on water charges.

The board will hear a report on conditions of the proposed lease, law and results of a questionnaire sent to members concerning the start of a community playhouse.
