✓ **We need our libraries**

I'm sad to see that our libraries mean

so little to people.

As a student, it's important for me to have a library other than the school's to use. I am fortunate to live close to our Garfield branch. Now that its doors are almost always closed, I haven't been able to get new books.

Another good thing about our libraries is that if you check out a book you don't like, it's not like you wasted your money like if you had bought it.

Please save our libraries. We really need them.

Josie Sproule, eighth-grader,
Santa Cruz
